THE HEATCRAFT ROADSHOW IS ON ITS WAY

Heatcraft is heading to a town near you. The 2011 Smart Solutions Roadshow is touring New Zealand in May.

The Heatcraft Roadshow is a series of trade events across Australia and New Zealand aimed at HVAC & R contractors, specifiers and sole traders. "With an industry that is rapidly changing, forums such as these enable networking and discussion on issues that can improve the way we do business" commented Gavin Tory, Heatcraft Director of Marketing.

As part of the roadshow Heatcraft will hold valuable information sessions covering topics such as carbon tax, regulatory change and energy efficiency. "Together with our leading suppliers, we are able to offer our customers the market insight and products they need to trade in this ever changing climate", continued Gavin.

Attendees of the roadshow will gain a better understanding of the Heatcraft refrigeration and air conditioning product offer, and view innovations that have been designed with energy efficiency, noise and ease of installation in mind.

The Roadshow will be in Auckland on May 24 at the Waipuna Hotel & Conference Centre and in Wellington on May 26 at the Brentwood Hotel & Conference Centre. Seminars will commence at 3:30pm, food and beverages will be served and entry is free.

For more information and to download your registration form, visit the Heatcraft website at www.heatcraft.co.nz or contact Heatcraft New Zealand on **0800 653 330**.

Heatcraft Worldwide Refrigeration® is a global leader in commercial refrigeration serving over 70 countries worldwide building its vision of being first choice in refrigeration. Setting the global benchmark in customer service, Heatcraft is at the forefront of sustainable technologies providing innovative refrigeration solutions that enhance the way we live.

Part of Heatcraft Worldwide Refrigeration, **Heatcraft** is a leading wholesale distribution business catering for the refrigeration and air conditioning trades with a distribution network of over 70 branch outlets across Australia and New Zealand.

The Heatcraft vision is to be the market leader in temperature and climate control solutions.
